

Hello Sir,

I want to thank you for giving me opportunity to be part of successful story of Ganga.

Sir, on the day of farewell ~~met~~ meeting, you asked us to give speech. When I stood up for speech, my heart rate went to 120. So I couldn't speak what I wanted to. So I decided to write what I feel.

Before meeting you many people told me that you are very helpful person. And I still remember when me & my wife met you for the first time, you asked my wife about ~~to~~ her career plan. And immediately you called Dr. Sachdev Sir for her job. Amazing!! It was my first time meeting you. Without knowing me you gave faith over me. Thank you Sir.

Apart from anaesthesia skills, I learnt lot of things from you.

You have reached the highest level of
Success but still your feet are on the earth.

I will always keep your words in my mind

"When you go higher up (success), you
should be more humble than only
people will respect you."

Sir, you are Sachin Tendulkar in the
field ~~an~~ of Anaesthesia

Sir, I know. I am not good at speech,
exams but I think I have given
my 100% in work. Sorry sir for whatever
mistakes I have done.

Thank you sir.

Yours faithfully
R
